

CAN'T FALL DOWN 4:34

By Erick Hovey

Don't feel blue, never say die  
Don't jump baby, you know that you can't fly  
It won't get worse, you paid the price  
There's a silver lining in this fools paradise

CHORUS:

You can't fall down (3 times)  
When your already on the ground (2 times)

You lost your job, you lost your car  
But you still have that old beat up guitar  
So just remember, when the wolf comes round  
You can't fall down when your already on the ground

CHORUS:

Pay no mind, to Murphy's Law  
Just cross your fingers, and catch at straws  
And just remember, when the wolf comes round  
You can't fall down when you're already on the ground

CHORUS:
