I got a devil in my pocket, got an angel in there too (2 times)
Ya know sometimes baby, just don't know what to do

I try to do right, I end up doin wrong (2 times)
Leave home with an angel, that old devil tags along

I wake up every morning, intendin to be good
The devil comes to visit me, now I'm misunderstood
I got a devil in my pocket, an angel in there too
Sometimes baby, I just don't know what to do

I try to do right, doin wrong feels so good (2 times)
Ya know I get real happy, when I aint doin what I should

The devil tell me one thing, the angel tell me too
They can't agree on what it is I'm supposed to do
I got a devil in my pocket, I got an angel in there
That old devil get his way when I, see a sweet sweet thing like you
